

## Unseen passage worksheet for Class-4

### "How is the game Among Us played?"

Among Us is a multiplayer party game where players take on one of two roles: Crewmates or Impostors. Set in a space-themed setting, the game is typically played with 4 to 15

players. At the beginning of each round, players are assigned their roles secretly. Crewmates work collaboratively to complete various tasks scattered throughout the game's map, while Impostors aim to sabotage their efforts without being detected.

The gameplay revolves around completing tasks and identifying the Impostors. Crewmates must complete all their assignments to win, while the Impostors win by eliminating enough Crewmates or causing chaos, such as sabotaging critical systems. Players can call emergency meetings to discuss suspicious behavior and vote to eject potential Impostors from the game. The social element is a crucial aspect of Among Us, as players must use deduction and communication to figure out who among them cannot be trusted.
